Dear Families,

Choosing the right educational path for your child is one of the most important decisions you will make. At Potter and Clay Academy, we believe learning should inspire curiosity, build confidence, and strengthen character.

Our mission is to nurture lifelong learners through research-based instruction, hands-on exploration, and meaningful parent partnerships.

Whether your family chooses our Home Learning Guides, Virtual Classroom, or Live Classroom, we are honored to partner with you on your homeschooling journey.

Welcome to the Pride.

Aerika Lewis

Founder

Potter and Clay Academy

Flexible Learning

At Potter and Clay Academy, you have the freedom to choose the programs that best fit your family's needs.

While many families enjoy combining our Home Learning Guides with virtual or in-person learning, there is no requirement to purchase our curriculum to participate in classes or enrichment programs. Families are welcome to enroll in individual offerings such as:

Weekly Virtual Learning

Weekly In-Person Learning

Reading Lab

Young Rembrandts Art Classes

Music Classes

Community Events & Enrichment

Whether you're looking for a complete homeschool solution or simply want to add an engaging class to your current homeschool routine, we're here to support your family's educational journey.

Choose one program or several—the choice is yours.

WHY FAMILIES CHOOSE PACA

At Potter and Clay Academy, we combine research-based instruction, meaningful relationships, and hands-on experiences to create a homeschool community where children thrive.

PACA Traditions

Annual Pumpkin Patch Adventure

Every fall, our White Lions visit the pumpkin patch to explore, play, choose the perfect pumpkin, and decorate it together. It's one of our favorite traditions and a wonderful way to celebrate the season as a school family.

Spring Mounted Horse Barn Visit

Each spring, students enjoy a special visit to the Mounted Horse Barn, where they meet the horses, learn about their important role in our community, and experience the joy of feeding and caring for these incredible animals.

Annual Educational Adventure

Each year, our families embark on an exciting out-of-town educational adventure. Whether exploring museums, historical sites, or unique learning destinations, these experiences bring classroom lessons to life while creating unforgettable memories together.

Kindergarten Graduation

Every milestone deserves to be celebrated. Our Kindergarten Graduation honors each student's growth, accomplishments, and readiness for the next chapter of their educational journey. It's a joyful tradition shared with family and friends.

**Because the memories we make together
become part of every child's story.**

ACADEMICS

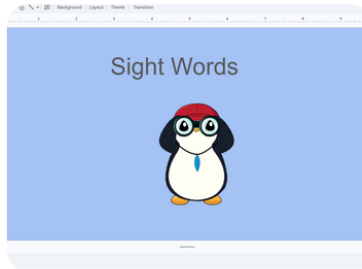

Pathways of Learning

Live Class Path

The Best of Home and Classroom Learning. Our Live Learning Pathway combines the flexibility of homeschooling with the connection of an in-person learning community. Students attend a full day of hands-on instruction each week while continuing their learning at home with our Home Learning Guides. Families enjoy small class sizes, project-based learning, and meaningful parent partnerships.

Virtual Path

Interactive Learning from Home. Bring the classroom home with live, small-group virtual instruction. Students participate in engaging Reading and Math lessons using hands-on materials, interactive games, and teacher-guided activities. Combined with our Home Learning Guides, families enjoy the flexibility of homeschooling with the support of a live teacher.

Home Path

Flexible. Engaging. Parent-Led. Designed for independent homeschool families, our Home Learning Pathway provides complete monthly lesson guides that make teaching at home simple and meaningful. Families receive research-based lessons, hands-on activities, parent teaching tips, book lists, calendars, and everything needed to create engaging learning experiences at home.

OUR CURRICULUM

Research-Based Learning That Inspires Success

At Potter and Clay Academy, our curriculum is thoughtfully designed using Brain-Based Learning principles and the Science of Reading. Every lesson is grounded in research and created to engage children through meaningful, hands-on experiences that promote critical thinking, creativity, and lasting understanding. Rather than relying on repetitive worksheets, we integrate subjects to help students make real-world connections while developing strong academic and character foundations.

Subjects of Study

- Reading (integrated with Science & Social Studies)
- Mathematics
- English Language Arts (integrated with STEM)
- Character Education
- Life Skills
- World Discovery

VIRTUAL LEARNING

Our live virtual classes provide an engaging, hands-on learning experience—not passive screen time. Each 45-minute class is intentionally designed to keep students actively participating through movement, manipulatives, discussion, and interactive activities while reinforcing reading and math concepts in a fun, supportive environment.

LIVE CLASSES

Our weekly in-person classes bring learning to life through hands-on instruction, collaborative projects, and meaningful social interaction. Students participate in engaging reading and math lessons while exploring STEM, nature, and creative activities in a small-group setting that encourages curiosity, confidence, and a love of learning.

TUTORING

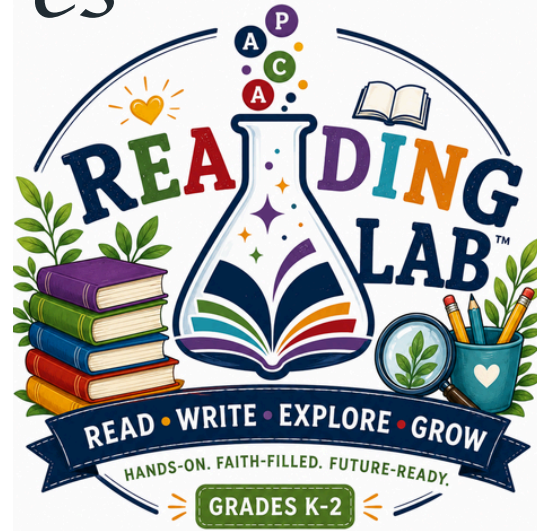

Personalized tutoring is available in person or virtually for students who need additional support in reading and early mathematics. Using a hands-on, research-based approach grounded in the Science of Reading and Brain-Based Learning, each session is tailored to meet your child's individual learning needs while building confidence and academic success.

Reading Lab: Reading Adventures

Building Confident, Independent Readers

The Reading Lab is included with every PACA Home Learning Guide and is designed using the Science of Reading (SOR) to help students develop strong foundational reading skills. Through engaging, hands-on activities, students practice phonemic awareness, phonics, fluency, vocabulary, and comprehension—without relying on worksheets. Families may enroll in the Reading Lab as a stand-alone program.

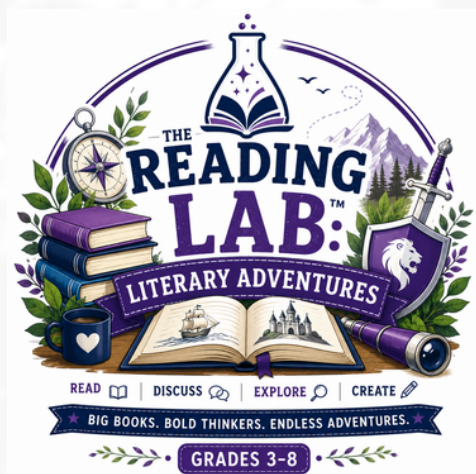

Reading Lab: Reading Rescue

Personalized Reading Intervention

Reading Rescue provides individualized reading intervention for students who need additional support. Each student begins with a comprehensive literacy assessment, followed by a personalized learning plan based on their specific strengths and needs. Sessions are available in person or virtually and use research-based Science of Reading strategies to build confident, successful readers.

Reading Lab: Literary Adventures

Designed for students in Grades 4–6, Reading Lab:

Literary Adventures transforms chapter books into unforgettable learning experiences. Students read engaging novels while building vocabulary, fluency, comprehension, and critical thinking through meaningful discussions and creative, hands-on projects.

Each six-week session features a new book, allowing students to dive deeper into literature, make real-world connections, and develop a lifelong love of reading in a fun, small-group setting.

Homeschooling in Community

“Homeschooling can feel lonely at times, but finding Potter and Clay Academy reminded me that we don’t have to do it alone. So thankful we’ve found our new tribe.” -Lee Family

ENRICHMENT

MUSIC ENRICHMENT CLASSES

**Hosted by
Texas Community Musicians**

Texas Community Musicians is a provider of high quality music instruction. Our instructors passionately teach all ages and all levels of music in a variety of ways. Whether learning a new instrument, training voices, or learning musical concepts from fundamental to advanced, we have you covered.

We are proud to partner with Potter and Clay academy to present a music curriculum. Music Explorers We will provide in person classes that teach the fundamentals of music. This Texas Essential Knowledge and Skills (TEKS) aligned curriculum focuses on activities that engage the child in a musical way allowing them to feel the musical concepts being taught.

During these sessions, students will sing, move to music, use simple instruments such as shakers, and participate musical games that are rooted in the wonder of imaginative play while being exposed to a variety of musical genres including classical, folk, and world music.

We are also providing an online session that will prepare and follow up on the musical concepts taught in the curriculum. Online participants can expect activities such as experimenting with virtual instruments, using sequencing software to create their own music, and digital games to help review content.

DRAWING & ART ENRICHMENT

Art Enrichment

Inspire Creativity Through Art
Our Art Enrichment program is taught by an award-winning professional artist who guides students through a variety of artistic techniques and creative experiences. Throughout the year, students explore watercolor painting, sculpting, mixed media, drawing, and other exciting forms of artistic expression. Each lesson encourages creativity, imagination, and confidence while helping students develop new artistic skills in a supportive and inspiring classroom.

Young Rembrandts Drawing Classes

At Potter and Clay Academy, learning extends beyond books. Through our partnership with Young Rembrandts®, students have the opportunity to explore art in a fun, encouraging environment while developing creativity, confidence, and fine motor skills. These engaging classes are designed specifically for homeschool students and provide a wonderful opportunity to connect with peers while creating beautiful works of art.

Community

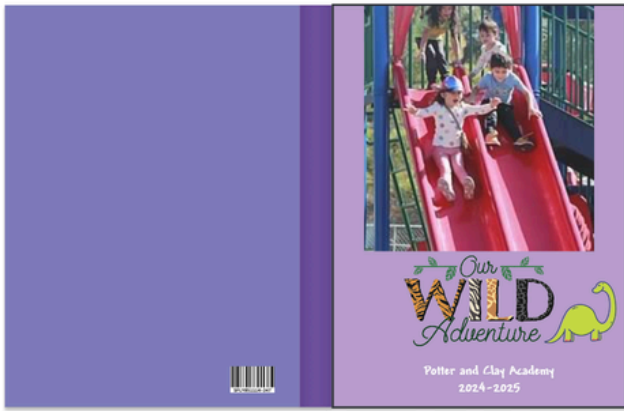

Learning Beyond the Classroom

At Potter and Clay Academy, we believe some of life's greatest lessons happen through shared experiences. Throughout the school year, families are invited to participate in educational field trips, seasonal celebrations, playdates, and special events designed to bring learning to life and strengthen our homeschool community.

From visiting local museums and nature centers to celebrating holidays and exploring new places together, our events create meaningful opportunities for students to learn, build friendships, and make lasting memories. Community activities may include:

-  **Annual Pumpkin Patch Adventure**
-  **Mounted Horse Barn Visit**
-  **Educational Field Trips (1 out of town trip in May)**
-  **Holiday Celebrations**
-  **Park Playdates**

💖 **Community Membership** families are welcome to participate in many of our field trips and events. Individual event fees may apply.

Annual School Yearbook

Celebrating a Year of Memories

Every school year tells a story, and we believe those memories deserve to be preserved.

Each year, Potter and Clay Academy creates a beautifully designed full-color school yearbook featuring classroom activities, field trips, special events, student accomplishments, and the moments that make our community unique.

Our yearbook serves as a treasured keepsake for students and families, celebrating friendships, learning adventures, and milestones throughout the year.

Creating memories together... one school year at a time.
